High water resistant flooring  
Say NO to water

## AQ 0307 Robel XL

Expressive and full of character. The focal point is the natural and lovely knotting of the materials. Its typical rustic features that makes a realistic impression of solidwood.

## AQ 2767 Chandelier Oak

The trend today leads us to cleaner and calmer materials and that is why Chandelier is a very successful proposal. This pavement is of homogeneous character and without many details to cause that peace we are looking for in our home.

## AQ O 136 Prestige Oak

Its golden brown shades, as well as its characteristic veining pays homage to the tropical wood per excellence. Gum details and deeply brushed achieves a three-dimensional visual effect.

## AQ 2359 Tahoa Oak

All we want in our home is a cozy and quiet space and Creppe Oak is a perfect ally for that. Very balanced and natural; flexible for homes with different styles and decorations.

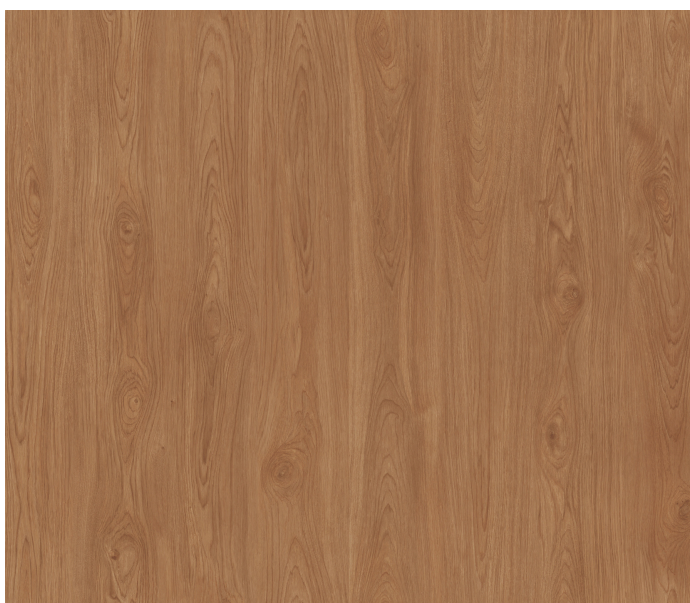

## AQ 1682 Synchro Oak

Absolutley majestic appears the veneer character of "Synchro Oak". The expression of the décor offers charm and diversity. A true royal appearance of a design.

# AQ 6428 Hamilton Oak

Hamilton Oak is made up of broad flowers and discreet small knots. The pores which are clearly visible due to the processing, are highlighted with white pigment to enhance the liveliness of the natural wood.

# AQ 6427 Preston Oak

A warmer and sturdier version of Preston Oak is derived by the enhanced colour tone, fuller coverage and stronger grain contrast. The impression of a solid timber flooring is achieved by the strength of this combination.

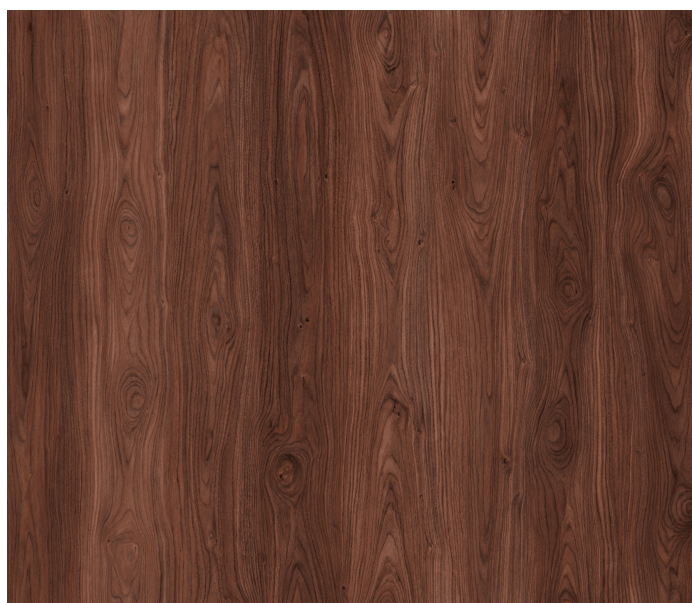

## AQ 1403 Prestissimo Oak

Prestissimo Oak lends itself extremely well to colourations in classic and modern oak hues, ranging from the nuances of pale, untreated wood to honey-coloured or dark, brownish colourways.

## The Advantages

The adherence of our flooring specifications is conformance to the European standard and it is placed on every packaging. That is your ultimate assurance of a quality flooring without compromise

### **Wear Resistant**

Withstand scratches from office chairs with soft rubber wheels.

### **Impact Resistant**

The tropical hardwood HDF core boards can resist sudden .

### **Stain Resistant**

Magic markers, lipstick or nail varnish can be easily removed with a drop of acetone on a clean cloth.

### **Formaldehyde**

The laminate board only contains as much formaldehyde as real wood and therefore meets E1 standard.

### **Vacuum Edge Protection**

Perfect edge protection against moisture, dimensional stability and minimize squeaking sound upon installation

### **Cigarette Burn**

A fallen burning cigarette that is for a few seconds on floor won't leave the slightest trace.

### **Not Easily Flammable**

Difficult to ignite due to its's tropical hardwood HDF

### **Termite Resistant**

Tropical hardwood HDF - low sugar content and due to its's hard core, it provide termite resistant naturally without any chemical.

### **Fade Resistant**

The aluminum oxide coating layer offers fading resistant from exposure to household lighting.

### **Glue Free Installation**

Easy installation and popular among DIY market.

### **Eco-Friendly Flooring**

Comply to European Norm formaldehyde emission of < 0.1ppm which does not have negative impact on human health.
